# MINDSTEIN ASSESSMENT

Assessment, Education & Training

# ABOUT US

- **MINDSTEIN** is a INDIAN based company which deals in Education, Assessment and Remedies of Multiple Intelligence. **MINDSTEIN** has started its venture in 2014 across world.
- It's an Russian technology which helps us understand the brain lobes function in scientific manner and helps parents to understand their children in a better way. It has been appreciated all around the world & now in India as well.

We at **MINDSTEIN** believe;

- Every child is unique
- Every child is achiever
- Every child is successful
- We help children to unleash their potential and talent with proven scientific methodology. With this methodology we come to know about a child's potential of brain in different areas of Intelligence. We are also associated with various renowned psychologists and academicians for our analysis.
- Currently having presence in different countries like UK, Switzerland , Slovakia, Poland and India

# MINDSTEIN ASSESSMENT INNATE ANALYSIS REFLECTS

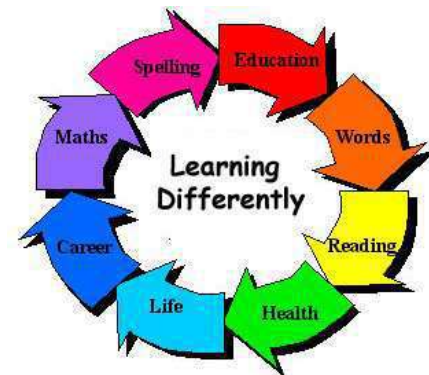

## 1. Personal Characteristics & Behavioral Tendencies

- Dominant
- Influential
- Steady
- Compliant

## 2. Preferred Learning Styles:

- Talk-Auditory
- Walk- Kinesthetic
- Chalk- Visual

## 3. Learning Mode:

- Self Cognitive
- Affective Learning
- Reverse Thinking
- Reflective Learning

# MINDSTEIN ASSESSMENT INNATE ANALYSIS REFLECTS

- **4. Brain Dominance:** Left Brain Vs Right Brain
- **5. Eight Multiple Intelligences – Pattern & Values**
- **6. Intelligence Performance Chart**
- **7. Four Quotients**
  - Intelligence Q
  - Emotional Q
  - Creative Q
  - Adversity Q
- **8. Percentage of Brain Lobe Activities with Functions**
- **9. Weaknesses & Supplements to Enhance (Remedies)**
- **10. Suitable Careers – As per top Intelligences**

# LEARNING STYLE

We learn new things by three ways:

- 1. Auditory
- 2. Visual
- 3. Kinesthetic

# AUDITORY LEARNER

- Learn by Listening
- Love discussions
- Music Lover
- Speaks in rhythmic patterns
- Talks to themselves while occupied
- Easily distracted by noise
- Enjoy Reading loudly
- Enjoy others reading
- Can repeat and mimic tone pitch and timbre
- Often powerful speakers
- Talkative, go into lengthy description
- Likes Music more than Art
- Have problems with projects that involve visualization, such as cutting pieces that fit together

# VISUAL LEARNER

- Learns by seeing
- Good long range planners and organizers
- Observant and notice details
- Remember faces (But Maybe not Names)
- Appearance oriented in both look & presentation
- Good spellers and can actually see the words in their minds
- Remember what was seen, rather than heard
- Memorize by visual association
- Likes to read, write, draw & generally have good handwriting
- Usually not distracted by noise
- Doodle during phone conversations and meetings
- Often know what to say but can't think of right words

# KINESTHETIC LEARNER

- Learns by manipulating and doing
- Often labeled as “ Hyperactive” or “Naughty” Children
- They Speak Slowly
- Use Action rather than words
- Touch people to get their attention
- Stand close when talking to someone
- Memorize by walking
- Might use a finger as a pointer while reading
- Respond to physical rewards
- Use a lot of non verbal gestures
- Tap a pencil or their foot while studying
- They reflect action with body movement as they read and might walk around while reading

# NEED OF MINDSTEIN ASSESSMENT

**Understanding  
learning style of  
kid**

**Understand characteristic  
and personality of your kid**

**Stress free-education  
method based on  
intelligence**

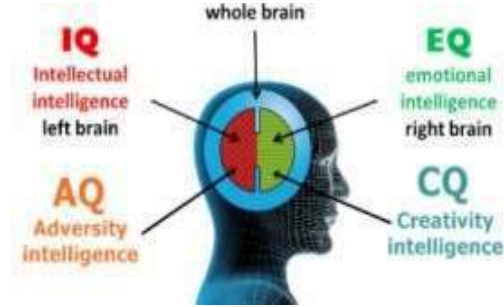

**Understand kids brain  
quotient**

# NEED OF MINDSTEIN ASSESSMENT

improve parent-child relationship

reveals the 4 types of quotient of your kid

identify strength - weakness of child

Learning Method

# NEED OF MINDSTEIN ASSESSMENT

career guidance  
based on  
intelligence

multiple intelligence  
- analysis

left vs right  
brain  
dominance

knowing  
unexplored  
**areas**

# Learning Methods

**Affective learner**  
Imitate learner

**Self cognitive**  
Independent

**Reverse thinker**  
Non-traditional learner

**Reflective learner**  
Dependent

# Multiple Intelligence

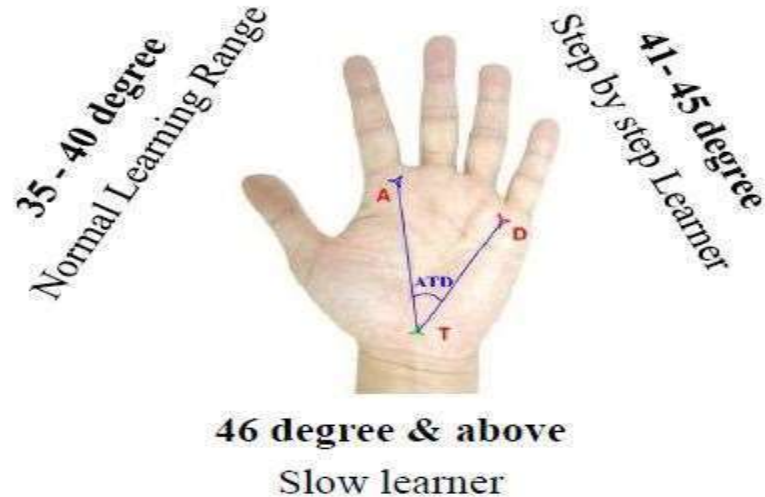

1. Musical-Rhythmic
2. Visual-Spatial
3. Verbal-Linguistic
4. Logical-Mathematical
5. Bodily-Kinesthetic
6. Interpersonal
7. Intrapersonal
8. Naturalistic

# ATD Angle

ATD angle has been in use for selecting the reflex action understanding of students education and kinesthetic activities

Countries like China , Taiwan, Malaysia , Russia using this to identify students for the sports and education betterment

# Mindstein Smart Scan

**SCANNING FINGERPRINT**

**ANALYSING THROUGH  
HIGH END SOFTWARE**

**REPORT GENERATION**

**COUNSELLING WITH PARENTS**

# Brain and Fingerprint

MINDSTEIN Assessment

Is Based on the Technology and medical science of

**Dermatoglyphics+ Embryology + Medical  
science**

# Evolution of Dermatoglyphics

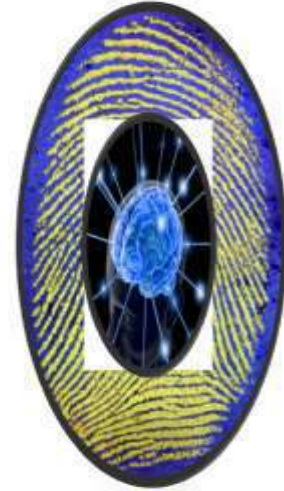

- Scientist Marbengy (1626-1694) was the First one to Study fingerprints Scientifically  
Gouard Bidloo wrote the first book with detailed drawings of fingerprints in Year 1685
- Marcello Malpighi Barcelona was the first to use microscope and maintain chronicle fingerprints in Year 1686
- JCA Mayer was the first to write basic principle that the fingerprint order their personal situation will not repeat, in year 1788
- John E. Purkinje Breslau was the first one to categorize fingerprints into nine types based on the patterns
- In early 1832, a Famous Surgeon of England named Charles Bell had started his study on this subject and discovered neurological link between fingerprints and brain

# Stages of Dermatoglyphics Formation in Fetus

- Week 6 – 8 : Formation of Limbs
- Week 10 – 12 : Limbs are fully developed
- Week 13 : Start of Dermatoglyphics Formation
- Week 14 : Brain including Cerebral Cortex starts forming
- Week 21 : Fully developed fingerprints

Ridges and brain of a fetus are developed simultaneously from 13<sup>th</sup> week of gestation period.

Each ridge has a direct connection with one or the other neuron of our brain.

# Benefit of MINDSTEIN

## Benefits for School

- Understand your student's natural character traits
- Identify student's innate talents and weakness
- Tailor-make your student's learning programs & teaching methods
- Establish the Multiple Intelligence database of the students
- Organize academic and extra-curricular activities based on student's innate abilities
- Provide Career counseling to your students based on MI

## Benefits for Parent

- Understand your child's innate personality
- Know how to apply the right approach in your kid's upbringing
- Identification of strengths and weakness of your child
- Helpful to understand the behavior and attitude of your child
- Relationship Management through better understanding
- Save the money which gets wrongly wasted in unnecessary courses or activities
- Life Changing counseling report
